On February 20th 2006, 9/11 Truth activists will convene at "Ground Zero" former site of the World Trade Center in lower Manhattan New York City to march against the U.S. Government's mass murder of 2,988 Americans on September 11th 2001.

Since our Government is a totally illegitimate criminal enterprise for perpetrating these attacks, we have chosen President's Day as an appropriate Occasion to march to restore the rule of law and order to our Republic.

We demand an international independent tribunal akin to the Nuremberg Trials to seek justice for the crimes committed on 9/11 2001 and for all crimes committed against humanity in its wake.

Protesters will proceed to march to Attorney General Elliot Spitzer's office with a letter demanding his resignation for his failure to investigate this crime committed in his jurisdiction despite overwhelming evidence.

We will then confront the media organizations The Nation Magazine, Democracy Now, The New York Times, and A.N.S.W.E.R as symbolic targets of de facto complicity with their silence and neglect of journalistic duties in the face of the greatest crime of the 21st century on American soil -This despite an abundance of specific credible evidence for the Government's role as the source of the attacks.

The rally will conclude at the office of former N.Y.C. Mayor Giuliani in Times Square, where we will deliver citizen's warrant for his arrest for his role in the attacks at The World Trade Center and criminal complicity in removing evidence from a crime scene. Civil disobedience will then be encouraged by protesters in an effort to call on fellow Americans to speak out against the colossal crimes being committed in the name of a fraudulent "War on Terror" and to demand the U.S. Government be arrested for treason and mass murder.

Please spread the word to any and all to come to Ground Zero on February 20th and make their voice heard that this frame-up on humanity in the name of "The War on Terror" ends NOW.

March for Truth N.Y.C. 2006!
